

MOPAR TEC Training Program

**PROGRAM
LOCATION:**

Alfa Romeo | Chrysler | Dodge | Fiat | Jeep | Ram

MOORESVILLE, NC

TRAIN WITH A DISTINGUISHED AUTOMAKER

Around the world, the Stellantis family of brands is recognized for its innovative design and outstanding performance. In the Mopar Technical Education Curriculum (TEC) training program, you'll learn the specialized skills required to maintain, diagnose and repair Alfa Romeo, Chrysler, Dodge, Fiat, Jeep and Ram cars and trucks. You'll get hands-on experience with the same tools and technology used by technicians at Stellantis dealerships.

As part of the Mopar Career Automotive Program, Mopar TEC is designed to help meet the growing demand for skilled technicians in the Stellantis dealership network.¹ Training covers everything from automatic transmissions, drivelines, chassis systems, and engine repair and performance to electrical and body systems, diesel, and A/C and heating. You'll learn Stellantis service procedures as you train on late-model Stellantis vehicles and equipment. As a Mopar TEC graduate, you'll be ready to pursue a career.

MOPAR TEC TRAINING PROGRAM

Program Length: 12 weeks

Program Type: Student Paid

Manufacturer-Specific Advanced Training

Topics Covered:

Mopar TEC 1

Get hands-on experience with specialized Stellantis equipment while training on the Tech Connect information system, the Wi-Tech vehicle diagnostic system, the reprogramming of electronic control computers and internal vehicle system components.

Mopar TEC 2

Learn about electrical power management, fundamentals of gas and diesel engines, engine hardware, engine management, power supply, distribution, repairing DTC-based issues, and servicing engine systems.

Mopar TEC 3

Learn Chrysler service procedures on brakes, suspension and steering, diagnosis and repair body systems, media systems, occupant restraints, and high voltage systems. Emphasis is placed on proper service procedures and use of special tools to help increase productivity in the workplace.

Mopar TEC 4

Get advanced training on engine management systems, diesel fuel systems and emission systems. Information will be provided on noise, vibration and harshness, as well as diagnosis and repair of diesel engine-equipped vehicles according to Chrysler service procedures.

UTi.edu/Mopar

"The demand for qualified Stellantis technicians is strong today—and growing. Our partnership with UTI allows us to attract the next generation of technicians by offering Mopar TEC's training on the same tools and technology used in Stellantis dealerships."
